LEADING THE WAY IN FIRE PROTECTION

INSULATED VERTICAL FIRE CURTAIN

Tested to BS EN 1634-1. Dry Insulation for up to 90mins. Integrity and Radiation Control for 240mins. Available in sizes up to 7m wide x2.64m drop

PRODUCT DESCRIPTION

The FireMaster Insul8 provides thermal insulation. This feature helps in containing heat within a specific area, which is particularly important for protecting escape routes, preserving structural integrity, and reducing the risk of secondary fires. This product can be face fixed only.

An EI fire curtain refers to a fire-resistant curtain or barrier designed to provide specific levels of integrity (E) and insulation (I) in the event of a fire.

PRODUCT TESTING

The FireMaster Insul8 fire curtain has completed testing at Warrington Fire to BS EN 1634-1 and offers E240 EW240 EI₁90 (E=Integrity, EW=Radiance, EI₁ = Insulation)

PRODUCT ADDITIONAL INFORMATION

The FireMaster Insul8 fire curtain is available in sizes up to 7m wide x 2.64m drop.

Applications include:

Lobbies and Receptions, Opening in Walls, Egress and Corridor Separations, Boundary Protection, Compartmentation, Protected Means of Escape
